TRAMP PRISONERS GIVEN FREEDOM

Judge Fanning Orders Release of Two Train Riders Sent Down From Sayre.

COURT WILL SUGGEST REMEDY FOR TRAMP EVIL

Sayre Borough May be Given Privilege of Maintaining Prisoners and Working Them on the Shoptown Streets, and Other Towns Do the Same.

In the habeas corpus proceedings instituted in behalf of two tramps sent to the county jail for ten days each for vagrancy by Justice Carey of Sayre, Judge Fanning on Saturday ordered the release of the two men, and they were soon on their way rejoicing with a good story to tell other "knights of the road" how they had figured in a real test case at law.

The court in passing upon the matter held that the committment was not in keeping with the law which provides for vagrancy the sentence shall be for not less than 30 nor more than 60 days at "hard labor." Under this law, a ten days' sentence does not stand, and that is one of the reasons why the two "tourists" were given their liberty. As to the other claim of the attorneys for the prisoners, the court stated that he was not prepared to rule upon that question, but would in an opinion which he will file later.

W. P. Wilson and David E. Kaufman represented the prisoner, while Benjamin Kuykendall, Esq., represented Sheriff Dean. Justice Carey, who made out the committment, was not represented, he being uninterested, as his duty ended with the sentencing of the prisoners.

Will Suggest Remedy.

It is understood that Judge Fanning will suggest a remedy for the tramp evil, which every once in a while agitates the people of Sayre and Athens. In his opinion passing upon the questions involved in the habeas corpus proceedings, and the dismissal of the prisoners; the law as to the acceptance of prisoners by the sheriff where there is no provision for the working of them; the sending of prisoners to the county house, and other phases of the law, Judge Fanning will suggest a remedy for the tramp nuisance.

One suggestion which may be made is that Sayre borough care for the vagrants who are arrested for train riding, and work them on the streets of the shop town. The court may also suggest this as a good plan for all boroughs. This would relieve the county of the cost of keeping the tramps and at the same time be of some benefit to the boroughs where there is always plenty of cleaning up to be done, and few men willing to perform the work.

Another remedy which may be suggested is for the county to establish a place for the working of prisoners. The stone pile has proven a financial failure, and what sort of an industry can be operated successfully with tramp labor is a puzzler, unless it would be a wood pile the product of which would always have a market, and thus bring sufficient returns to pay the prisoners' board.

Will Change Sentences.

The Sayre justices, anxious to keep within the law, will undoubtedly make the sentences from 30 to 60 days, but if they do, and there being no way in which Sheriff Dean can employ such prisoners, then it is claimed, they cannot be harbored in the county jail, and the attorneys are not sure that they can be sent to the county house, as court decisions in such cases indicate that a workhouse, and not a poorhouse shall be their places of abode while under sentence.

JUSTICE CAREY SENDS TRAMP TO JAIL FOR 35 DAYS.

An Effort Will Be Made Today to Have Him Liberated.

John Kennedy, a vagrant, was arrested in Sayre Tuesday morning while begging on the streets, and to obey the mandates of the vagrancy law, Justice Carey sent him to the county jail for a period of 35 days.

This long term is a result of the fault finding with the ten day sentences which were contrary to the vagrancy law. There is no way in which the prisoner can be worked, as the law requires, and today Attorney Wilson will commence proceedings in court to have the prisoner liberated.

It is also expected that some action will be taken to restrain the Sayre justices from sentencing prisoners to the county jail for vagrancy until there is a way to detain and work as the law requires.

Justice Carey sent two men down for ten days each last Friday, and on Saturday, Judge Fanning released them because of an error in the sentencing, the law requiring from 30 to 60 days at hard labor, while they were ordered to stay with Sheriff Dean for but ten days, and there was no hard labor to be had in the county jail.

The outcome of the proceedings to release the 35 day man will be watched with even more interest than was that in which the ten day prisoners figured, and were released.

ANENT TRAMP PROBLEM.

Honesdale Tried Working Vagrant on Street and He Ran Away.

In these days of worry over the tramp problem, the following from yesterday's Scranton Tribune will be read with interest by the people of this county:

"The experience of the authorities of Honesdale with a vagrant the other day offers a good suggestion for solving the tramp problem here and elsewhere. The vagrant, a man named Rabbitt, was sentenced to work thirty days on the streets of town. He did not work thirty days but ran away while those in charge of the work were not looking, and it is presumed that he is still running. This is much better than feeding the vagrant in idlness. Quarters in the county jail are welcomed by the average hobo. But the prospect of work will cause him to shun any locality. There are quite a number of gentlemen of no visible means of support loafing about this town, begging a nickel here and there, who might be made useful citizens on the highway repair gang."

NEWSPAPER CONSOLIDATION

Local People Iterested in Carlisle, Pa., Business Deal.

The Carlisle Printing company, publishers of the daily and weekly Volunteer at Carlisle, Pa., have purchased the daily and weekly Herald, also published in that Indian school town, and the two offices have been consolidated. Both are Republican papers, and the Daily Herald will be continued as an evening paper, while the Daily Volunteer will be a morning mail edition, especially intended for the rural routes. The two weekly papers will be combined, and hereafter known as the Volunteer-Herald, the oldest of the weekly papers having been established in 1800.

Bradford county people will be interested in this business change, as E. B. McKee of this place, is one of the heaviest stockholders in the Carlisle Printing company, and his brother, F. C. McKee, is treasurer and business manager of the company, and managing editor of the papers. G. H. Davies, Esq., is also a stockholder. The deal is looked upon by Cumberland county people as an excellent business move.

Following is the time of the excursion train at the different stations, together with the fare for the round trip.

Cornerstone Laid.

The cornerstone of the new hose house, which is being erected by the Triton Hose Company in Tunkhannock was placed in position on Saturday afternoon. The stone is of native bluestone and on the front is carved the figures 1909, while the side shows the date of the organization of the company, 1872.

Being Treated For Dog Bite.

William Welling, the Pratt avenue man, who was bitten by a rabid dog a week ago Monday, and who went to the Pasteur institute at New York Sunday morning for treatment, has returned to Towanda, bringing the serum with him, and he will be treated by Dr. T. Ben Johnson, Jr.

PICNIC AND RACE MEET A SUCCESSFUL AFFAIR.

Good Attendance at the Sports Matinee on the Fair Grounds.

The picnic and sports matinee on the East Towanda fair grounds Friday was a success in every respect. There was a good attendance, nearly 1,000 people paying admission, which makes the financial end come out all right.

The racing events were interesting although the track was too heavy with dust for the making of very fast time.

Following is the result of the 2:40 class trot:

Robert J	1	1	
Gladiona	2	3	
Muggins	3	2	

Time half mile heats: 1.26¾; 1.25.

2:25 Class Trot.

Nellie B	1	1	1
Scott Gardner	2	2	2
Dixie D	3	3	-

Time half miles: 1.12½; 1.10½; 1.18

Pony Race.

The pony race of an eighth of an mile had four starters in the first heat: Columbus with Tod Connors up; Lewis M, Clymer Overton; Chieftian, Gwynn Johnson; and Dot ridden by Paul Scott.

The race was to be one eighth of a mile, one heat to decide. Columbus and Lewis M came down the stretch neck and neck, and finished so close that the judges decided it a dead heat, and ordered another race. The next time Lewis M bolted out the gate leaving Columbus to finish alone, the other ponies having been withdrawn after the first trial. Then it was agreed to run the heat over again and Lewis M beat Columbus to the wire.

Running Race.

The running race proved one of the real exciting events of the afternoon. Richard A. with George Johnston, Duck ridden by W. Worth Jennings and Mish with Mark J. French in the saddle were the starters. Richard A was outdistanced by Mish and Duck who galloped along neck and neck until near the finish when Mish leaped ahead and came under the wire nearly half a length to spare.

Exhibition Quarter.

H. H. Northrup drove Philetea Medium, his fast trotting mare an eighth of an mile in 14¼ seconds. He was to have driven a half mile in an endeavor to lower the track record, but owing to the heavy dust, the attempt was not made. M. J. French paced Norhrup with the running horse Mish.

Hundred Yard Dash.

The hundred yard dash between Sadler of New Albany, and Bird of Forksville was an exciting event. Sadler has outrun all the sprinters in this section, but he found a stepper in Bird, who took the race by a yard in the time of 11¾ seconds. Sadler was in poor condition and neither runner could do his best on account of the dust.

Dog Race.

A running dog owned by Denis McMahon defeated George Potter's runner by several yards in an eighth of a mile race.

Rome 18, Rummerfield 17.

The ball game between Rummerfield and Rome attracted a good deal of attention. Rome took the game by a score of 18—17. Such swatting as was done, has not been equaled in this vicinity in some time, several home runs being made during the contest. Both teams made frequent changes during the game, and "Jack" Cotter who started in to umpire, pitched the last two innings for Rome.

Germania Band Present.

The Germania band was present during the afternoon, and enlivened the occasion with good music.

The automobile and farmers running race were the only events that were omitted, the rest of the program being carried out without a mishap. Charles Meredith was master of ceremonies, Albert Powell ringmaster, P. E. Maynard, Esq., E. W. Elwell, Dr. D. Leonard Pratt, Thomas and James Kinney were judges of the racing events.

Stuffed a Toad Down His Throat.

John Riale and John Danneker, of Williamsport, charged with asault, were arraigned before Alderman Batzle Saturday and held for a hearing next week. The boys are charged with an unexampled act of cruelty. It is claimed that they stuffed a live toad down the throat of a three-year-old son of Mrs. John Stoner of Fifth street and that the boy nearly died of suffocation before the toad was removed.

Cars Off Track.

The Wyoming division of the Lehigh had an unusually lot of hard luck on Saturday and Sunday. Saturday about noon a car of steel was derailed near Meshoppen, blocking both tracks, and holding up the Black Diamond, No. 1, No. 7, and the other fast passenger trains for some time. Sunday morning early a wreck below Tunkhannock creek caused another delay.

DAM PROSPECTS VERY BRIGHT

T. M. R. Meikleham, Head of the Investing Firm, is Very Much Encouraged.

WILL NOT PAY THE FANCY LAND PRICES

Will Probably Accept Indemnifying Bond Offered by the Towanda Business Men's Association, and then Exercise Right of Eminent Domain.

T. M. R. Meikleham, head of the firm of investors which desires to dam the Susquehanna river at a point near Towanda, was in the City of Promise over Sunday, returning to New York yesterday. He will return to Towanda some day this week.

While here, Mr. Meikleham went over the proposition thoroughly, and while he was disappointed at the action of several of the landowners who are still holding out for fancy prices, yet he was encouraged at the general prospects for the enterprise. Mr. Meikleham or his firm have no intention of paying the fancy prices asked for some of the land, in fact, they are not taking such property into serious consideration, as they are aware that the law will not be unreasonable if it comes to a struggle, the right of eminent domain being effective if they desire to take such action.

The charter applications will be heard in Harrisburg on Friday of this week, and after several other matters have been disposed of, it is expected that Messrs. Lilley and Fell will make one more effort to buy the rest of the land needed at a reasonable figure, and if unsuccessful, then the investors will, it is expected, accept the indemnifying bond of the Towanda Business Men's association, go ahead with the work, and when it comes to the point of flooding of land not purchased, they will commence eminent domain proceedings, the Business Men's association standing between them and liability in the meantime. This will allow them to nearly complete the dam, if they decide to build it, before they have to go into court, if that step becomes necessary at all. Meikleham & Dinsmore mean business, have been fair and square, and the Towanda Business Men's association mean to give them every possible help. Really, the prospects for building the dam are not at all discouraging from any point of view.

Another thing which makes the prospects for building a dam near here more brighter, is the fact that work was resumed on the McCall Ferry dam yesterday, after a long idleness. The engineer in charge of this work is D. R. Value, of 60 Wall street, New York city, who will complete the work for its height about 1,000shrdindON mwe the receivers. It is also announced that the receivers intend to complete the dam and power house and to start the plant as soon as all work is completed.

The completing of the McCall dam will have a good effect upon the bond market, and will not be a block to the disposing of bonds for the Towanda project, as has been expected.

MINERAL WATER AND FINE VEIN OF COAL TAPPED

Drill Being Sent Down on Cowell Farm is Finding Treasures.

Undreamed of treasures are being found by the drill which is being hammered down in a search for oil and gas in Monroe township soil from a point on the J. R. Cowell farm.

Some time ago a fine spring of mineral water was tapped which has been flowing steadily in a good stream and on Saturday the drill penetrated a fine vein of anthracite. This coal is of a fine quality, and the vein was over eight feet in thickness, which is large enough to make it profitable to mine.

The coal vein was struck at a depth of about 800 feet, which is considerably below the coal deposits in Sullivan county, or in the Barclay mountains in this county.

No oil or gas has been found as yet, but the drillers consider the prospects very favorable.

LOTS OF PURE FOOD WORK.

Nearly Half of the Prosecutions Against Oleomargarine.

The preliminary report of Dairy and Food Commissioner Foust for the year 1908, just issued shows that the department was almost self-sustaining, the receipts for the year being $54 5[illegible] 72, and the expenditures $[illegible]9,968.20. Oleomargarine [illegible] brought in $10,430, and various adulterated food fines $5909.

Three hundred porsecutions were carried to conclusion of which 121 were for illegal sales of oleomargarine, Chemists of the department analyzed 4891 samples, of which 698 were found to be adulterated.

"The situation is very much better than it has been at any period in the past," reports Commissioner Foust. The most prolific cause of adulteration, he finds, is the popular craze for cheap things. He thanks Governor Stuart and Attorney General Todd for their support and co-operation in the campaign for pure food.

Mrs. John Henley Injured.

Mrs. John Henley was painfully injured in a fall Tuesday. She was a member of the funeral party which accompanied the remains of the late Miss Mary A. Braund to Asylum, and became numbed by the long ride in the carriage. When she alighted from the conveyance at the Asylum church, her limbs, weak from being cramped and poor circulation of the blood, gave out, and after taking a step in the direction of the church, she fell to the walk, fracturing a bone in her left wrist, and injuring one of her hips badly. Dr. Chaffee dressed her injuries.

WORK OF THE GRIM REAPER

Fred T. Billings.

On Wednesday, Aug. 4, 1909, after an illness of five days, one of LeRaysville's prominent citizens, F. T. Billings, died from the effects of hemorrhages of the internal organs. He was born April 26, 1841 in Prattville, Bradford county, and was a son of Enoch T. and Sarah Ann (Pierce) Billings. Of a family of seven, two having died in childhood, he was the oldest. From boyhood until his death he was one of our most active, industrious and energetic citizens, always ready to lend a helping hand in any public improvement of our borough. His fellow citizens recognized this and elected him to nearly all the official positions within their gift. At the age of twenty he was united in marriage to Fannie Elvira Birdsall of Middletown township, and to them was born one son, George E. Billings, who has been the junior partner in the drug firm of F. T. Billings & Son. Two years after his marriage he moved to LeRaysville and began farming on the late Benjamin Pierce farm, where he continued uninterruptedly until 1884, when he purchased the drug business of the late P. C. Van Gelder. From that time until the beginning of his sickness, he has been one whose familiar figure could be seen on LeRaysville streets or at his place of business at any time. That he did his life's work well and filled with zealous care the place allotted to him is said without a dissenting voice. In addition to the wife and son above mentioned, he is survived by one brother and two sisters: Randolph Billings and Mrs. H. A. Wood of Binghamton, N. Y., and Mrs. William Beck of Montrose; Perry and Mrs. George Canfield having preceded him to the land from whence no one returns.

The funeral service was held on Friday afternoon and the remains were buried in the Stevens cemetery at Centreville.—Eastern Bradford Times.

A notable event in Troy society was the brilliant wedding at 7 o'clock Wednesday evening, August 11 of Miss Eloise Mitchell, daughter of Mrs. Benjamin Bentley Mitchell, to Mr. Charles Markward Knox of Johnstown, N. Y. The wedding was solemnized at the First Presbyterian church where were bidden over 1,000 guests. The edifice was handsomely decorated. Asters, phlox and gladiolas were used extensively and an abundance of stately palms banked the chancel. A beautiful canopy effect was produced by festoons of laurel studded with pink asters. Arches of ground pine and phlox were erected through which the bridal party passed and gates of gladiolas completed the floral arrangement. Mrs. Wilson Weigester presided as organist and finely rendered a beautiful program preceding the ceremony. The bride was attended by Miss Dorothy Beaman as maid of honor, the six bridesmaids being Miss Rachael Briggs of Johnstown, N. Y., a cousin of the groom, Miss Gertrude Innes of Canton, Miss Louise Wilson of Elmira, Miss Mildred Ballard, Miss Frances Beaman and Miss Nelly Grant of Troy. The groom was attended by his brother, James Knox, of Johnstown, N. Y., the ushers being Dr. Frederick Sprowl of Indiana, Dr. William DeWitt of Philadelphia, Chas. Northrup, John Welles, Harold Hutchens of Johnstown and Ralph A. Burr of Troy.

The bridesmaids and ushers entered from the vestry during the introduction of the Lohengrin bridal chorus carrying the ribbons up the centre aisles, enclosing the guests and meeting the bridal party at the church entrance returning to the chancel. The bridesmaids wore charming empire costumes of pink silk chiffon over pink silk, en train. They wore veils caught with wreaths of pink sweet peas and carried ribbon bouquets of the same flower. The maid of honor wearing an empire gown of white silk chiffon, entraine over white silk, wearing a veil covered with a wreath of sweet peas, and carrying a bouquet of Maryland roses, preceded the bride who was beautifully attired in a robe of white royal satin en train and handsomely trimmed with Rose Point. Her veil was caught with orange blossoms and she carried a rare ribbon bouquet of orchids sweet peas and lillies of the valley. They were met at the chancel by the groom and his best man. In the absence of the bride's pastor, Rev. E. P. Morse, who was detained by serious illness, the groom's pastor, the Rev. Dr. MacKenzie, of Johnstown, N. Y., who was also to preside, performed the impressive Presbyterian ceremony, the bride being given in marriage by her brother, Benjamin B. Mitchell, Jr. At the conclusion of the ceremony the party left the church to Mendelssohn's wedding march.

A reception followed at the residence of the bride's mother to which were bidden 300 guests. The house was handsomely decorated with a profusion of palms, sweet peas, phlox and asparagus fern. Stopper and Fiske's orchestra of Williamsport was partially concealed by a fence of phlox and asparagus ferns in the music room and played an elaborate program during the evening.

The guests were welcomed by three receiving lines consisting of the bride's mother, Mrs. Mitchell, the groom's mother, Mrs. Knox, Mr. C. M. Knox, grandfather of the groom, Mr. and Mrs. R. E. Van Syckel, the latter being a sister of the bride, Mr. and Mrs. B. B. Mitchell, Jr., and the bridal party. The gift room was filled with a magnificent array of presents, showing the high esteem in which the bride and groom are held. The groom's gift to the bride was a Tiffany bracelet of saphires and diamonds; the gift of the bride's mother, a silver purse containing a check for $2,000 and from the bride's brothers and sisters a chest of silver. The groom's mother presented them with a handsome house and lot in Johnstown, N. Y., and from the groom's brother was a check for $1,000. Among the unique gifts was a pear handled cheese knife from a lifelong friend of the groom, which had been in the family for over 100 years. From the bride's grandmother, the late Mrs. Samuel W. Pomeroy, was a bed spread made when she was over eighty years of age to be kept for the bride till her wedding, which with a rare bit of point lace made by the groom's grandmother was much prized.

The bride's gifts to her attendants were their gowns and the groom's gifts to his ushers were Tiffany pins, while to his best man was given a Tiffany ring with an aquamarine setting.

The bride is one of Troy's charming and accomplished young adies, is a daughter of the late Senator B. B. Mitchell and grand-daughter of the late Samuel W. Pomeroy.

THE INCOME TAX AMENDMENT.

Pennsylvania will not act upon the proposed amendment to the constitution of the United States allowing an income tax before the year 1911, as no session of the legislature will be held before that date unless circumstance should render it necessary to call a special session. If the people of the state favor the proposition they can bring it to the front far enough to discover what are the views of the gentlemen who want to go to the legislature next year. There is much [illegible] amendment would get in favor vote in Pennsylvania legislature. The eastern states are thought to be against it. The great property holding, investment owning states, which will pay three-fourths of the tax, are not likely to vote for it. The legislature of Connecticut has just postponed consideration of the matter until the next session. There was a surprise in the south the other day, when the Georgia legislature adjourned without taking action on the proposed amendment. The income tax was thought to be strong in the southern states, and it was the supposed unanimity of the South in favor of it on which were based the hopes of getting a three-fourths majority of the states to concur. If only a few of the Southern legislatures should vote adversely to it the likelihood of the adoption of the constitutional amendment would be slim.

We observe that the Bradford Star is going to support Mr. Kipp for state treasurer, notwithstanding it has been calling attention to the fact that the ticket was "arranged by boss Guffey," and is a "one man ticket." If we may believe our contemporary Mr. Kipp is now pretty well shelved and "got rid of," and the way it was done was by nominating him for state treasurer, and we are told that the scheme was put up by a conspiracy of "Republican and Democratic bosses." We take it that the Star is not going to have much fun in this campaign—supporting a candidate whom it believes has been "got rid of," and who is marked for defeat by the Democratic bosses themselves. If this tale is true and Mr. Kipp is being slaughtered in the house of his supposed friends, why don't the Star put up a big "holler," and warn and protest against the treachery? By such a course it would show itself a true friend of Mr. Kipp. In giving him its support, even though it be lukewarm, the Towanda organ is simply helping on the infamous deed.

Former Congressman George W. Kipp of Towanda, does not appear to appreciate the honor conferred upon him for the office of state treasurer at Harrisburg the other day. Mr. Kipp realizes that his "barl" has been the chief attraction that has aroused the enthusiasm of the Guffeyites, and he also is aware of the fact that it will cost much more to finance a campaign over the entire state than it did to keep up patriotism in the Fourteenth Congressional district. From the present attitude of the candidate it does not look as though he would give up very cheerfully when the campaign contribution box is passed around.—Scranton Tribune.

There was somewhat of pathos in the question asked the secretary of the Democratic state committee over the wire the other day by the about-to-be nominated candidate for state treasurer:—"Does the committee want to bleed me?"

The state political campaign promises to be duller this year than ever before. The Scranton Tribune remarks that it looks as though nothing but a three-cornered fight would ever arouse enthusiasm in Pennsylvania again.

It's strange how provoked it makes all of the Thaws because the courts insist on believing that they told the truth at the trial of the Thaw murderer.

The fraternity which takes cognizance of a brother's woes and takes intelligent steps to help him to extricate himself is something worth while.

WILL HE CARRY THE COUNTY?

Without doubt Mr. Kipp will poll the full Democratic party vote in Bradford county this fall, and it is a fair guess that he will do considerably better, for he is a popular man with the voters of all parties. Will he carry the county? The claim that he will is being made. We do not believe that he will. It is true that he carried Bradford county in 1906, in his first campaign for congress, when he polled 813 votes more than his Republican competitor—M. E. Lilley. And it is also true that he lost the county last fall, when Republican C. C. Pratt led him by 583 votes. So in his congressional campaigns Mr. Kipp has had the complete experience of a soldier of fortune. He has both fallen outside the breastworks and gained the citadel. He knows the joys of victory and the sorrows of getting licked, and you can argue either way as to his chances this fall if you take his congressional battles for a basis of judgement. But we do not believe he can carry Bradford county for state treasurer in this year of grace, 1909, and we go by the figures and are led to our conclusion by precedent. The late Hon. Joseph Powell, who was likewise a resident of Towanda, was one of the most popular men ever named for office in Bradford county. He was so good a vote getter that in 1874 he was elected to congress on the Democratic ticket from this strong Republican district, and carried Bradford county over Republican Bartholomew Laporte by 121 votes. He was also chosen sheriff over Levi Wells in the cataclysm of 1890 by 1857 votes. But in 1883 Mr. Powell was the Democratic candidate for state treasurer, as is now Mr. Kipp, and Republican William Livsey beat him in the county by 1230 votes.

The battle locally will not be so [illegible], for will the candidate's personal popularity in the home district county for so much in this state-wide fight as it did in the congressional elections two years past. Nor, if we read the signs aright, (and this is the thing that "counts") is there to be so ample a "wad" available for campaign [illegible] We guess that Mr. Kipp will not carry the county.

The Bradford Argus of last week made note of a remarkable fact—that G. H. Vandyke of Ulster, ex-commissioner of Bradford county, and a man well known in Towanda and throughout the county, has for 66 years visited the Argus office annually and paid for his newspaper in advance. This is a most worthy and unusual record, and will be noted with interest in the office of country newspapers throughout the land. Sixty-six years! Think of it! And subscription paid in advance all that time! Ye Gods, brethren of the press, what an Elysium this old world would be if everyone was like Mr. Vandyke! Newspaper men are as a class creatures of emotion, and we have no doubt that more than one country editor's eyes will moisten when they read this plain and simple narative. We congratulate the Argus. We congratulate Mr. Vandyke. May his tribe increase until it fills the earth to the uttermost parts thereof.

On Saturday, August 28, the people of Eastern Bradford county, that is a large share of the population will gather at North Orwell for the annual picnic. The North Orwell picnic is an occasion of great importance in Bradford county, attracting as it does a large number of industrious and intelligent people, and this year it will be more important than ever. "Temperance for Bradford County" will be the motto of the day, or rather the theme of the speakers who will be in attendance. During the next twelve months temperance is going to be widely discussed all over Pennsylvania, for the "dry" and "wet" forces are lining up for a great battle before the election of another governor, new legislators, and other state officers, and the gathering of people at North Orwell will hear this important topic discussed from several different viewpoints. Great stress will be brought to bear upon the liquor traffic evil, and the election returns will show whether the speakers had any influence of convincing powers upon the voters of Eastern Bradford.

Unfortunately for both parties the Democratic party vote in Pennsylvania has become too small to be feared. Mr. George W. Kipp of Towanda, is a worthy citizen, and as good a man for state treasurer as the Democrats could name, but he will go to defeat in November and no one doubts it. The Star plaintively says: "If the other counties will do half what Bradford will, he will be elected by a large majority." This is about as hopeful a note as we expect to hear from the Democratic press during the campaign. The Democratic candidate will doubtless receive a sizeable complimentary vote in his own county, but the Star may dismiss whatever hopes it has. The other counties will not do "half what Bradford will."

Dean Shailer Mathels says that the newspaper "shapes the popular mind more by its headlines than by its editorials." And do authors impress by titles of their books, not by the contents, artists by their themes rather than by their execution—and lecturers by their platitudes more than by their cause?, asks our old friend, the South Bethlehem Globe.

We are of the opinion that Harry Thaw is really insane, and are glad that he has been remanded to the asylum, where he belongs. Those who are fond of saying that there is one law for the rich and another for the poor will please note that the result in this instance does not support their contention.

THE NEW BALLOT.

The voter who desires to vote the whole of his ballot intelligently next Fall will be required to do a little studying beforehand. There will be ten proposed amendments to the Constitution to be voted upon, and these will all, according to a decision of Atty. Gen. Todd, appear in brief form on the ballots. The opinion states that the amendments shall appear in the form in which the sections will appear as amended, and that it will not be necessary to print both the present form and the proposed form of each section.

This will somewhat shorten the form, but it will still be bulky enough to require careful reading and study. Each proposed amendment will be printed as a separate question, with a square containing the words "yes" and "no," wherein the voter may place his X-mark. The schedule for carrying the amendments into operation will also be printed as an additional question, and will be marked like the others. As to the requirement for printing the schedule, after pointing out why it was not printed at the time of the adoption of the Constitution, Atty. Gen. Todd says:

"A different situation presents itself at this time, for we have the proposed amendments which must be voted upon separately and a schedule which will only be of use in case the amendments are approved by the electors. The amendments now proposed to the Constitution materially affect the length of the terms of office of many officers and the time of their election. The schedule declares how the proposed amendments are to be put into operation without confusion or disorder. It is to be borne in mind that we are not dealing with [illegible] of legislation, but with [illegible] of the people of this Commonwealth to amend the Constitution. If these amendments are approved by a majority of those voting of the constitution. The qualified electors of the Commonwealth, and they alone have the right to prescribe how the proposed [illegible] in case they are ap-

UNION VETERAND MEN AND BOYS.

The average age of the man—or rather the boys—who served in the Union Army during the struggle for the preservation of the Union, has been the subject of controversy on more than one occasion. The figures which tell this story are on record, and they have a degree of interest which entitles them to newspaper space.

It is almost past belief that of the army of 5,000,000 that fought in the Union ranks, 4,491,674 were under the age of 21 years and only 618,511 22 years old and over. The official figures are furnished by Capt. William F. Meyers, an employe of the War Department of the United States Government from 1880 to 1886, who copied them from the records and sent them to his comrade, Capt. Charles W. Clayberger of Allentown, who served in Company G, 188th Regiment Pennsylvania Volunteers. These figures show that 25 boys at the age of 10 years enlisted: 35 at 11 years: 225 at 12 years: 301 at 13 years: 1,523 at 14 years: 104,387 at 15 years: 231,051 at 16 years: 844,891 at 17 years: 1,151,438 at 18 years: 2,159,798 between the ages of 19 and 21 and 618,511 at the age of 22 and over.

PUT UP SIGN BOARDS.

The supervisors of the various townships in Bradford county should get at it and place sign boards at every cross road, giving distance to nearest postoffice or village.

At present sign boards are few and far between. For instance in North Towanda township the traveler comes to a place where a road branches off and after squinting out of one eye, like you would sight a gun, a little sign which says "Saco 2 Miles." can be seen. Whether there is any other place within a thousand miles, the sign board does not say although the pretty village of Ulster is but a few miles around the turn of the road, and the City of Promise is five miles to the Southeast.

In other sections of the county a sign board will say: "To So-and-So, three miles." One or two miles further on, another mile post will say the same thing. According to this, you are no nearer your destination than you were when you encountered the first mile post. Of course, this can't be so, but all the same it makes the county look foolish and the traveler mad.

As a matter of fact, very few mile posts in this County agree either in the number of miles between them or to a given point. Apparently each Board of Township Supervisors has its own idea about it, with the above result.

According to statistics compiled by The Electrical World, the electric lighting industry is represented in the United States by 5264 companies and municipal plants, and in Canada, Mexico and the West Indies by 476. These figures compare with 5015 and 449 on April 1, 1908, showing a gain in the United States of 249 and in the other countries of 27 in the year. The spread of alternating current methods is commented on, as many as 4154 of the plants having alternating current.

The preliminary report of Dairy and Food Commissioner Foust for the year 1908 has just been issued in the form of a bulletin. It contains a history of the year's work, with some informing statistics and two or three valuable papers on dairy and food topics.

Bishop Samuel Fallows of the Reformed Episcopal Church, preaching in St. Paul's Church, Chicago, recently, on "The Race for Life," took occasion to warn his congregation against automobile speeding. "'Let your moderation be known to all men' should be inscribed in every car," said the Bishop. "The commercial, military and other uses of the automobile are endless. We, therefore, hail its advent with joy, not untempered, however, with a wholesome fear." Sermons on such pressing everyday subjects as the good Bishop delivered every place would lessen the common complaint about empty news, is the comment of The Lancaster Examiner.

We are still optimistic in regard to the Towanda dam project. We are impressed with the business like way of Meikleham & Dinsmore, the investors, and no one can say that they have not been perfectly fair with everybody concerned in connection with the gigantic enterprise. That they are sincere and mean business we do not doubt for an instant, and before cold weather sets in, we are in hopes that there will be visible indications of a big power dam not a great ways from this beautiful City of Promise.

The late Democratic state convention thought best to assail the new tariff law, and it was expected it would do that very thing. Assaulting the tariff is a favorite pastime and occupation of Democratic conventions, orators and newspapers. The bill is not perfect, but the dwindling vote of the Pennsylvania Democracy will not be increased by a denunciation of the new tariff. No party ever won in Pennsylvania by attacking a protective tariff.

The latest invention is a railway inspection car convertible into an automobile. The wheels are easily changed from a flange to a pneumatic tire. One of these machines has been constructed for the use of the superintendent of the Chicago and North[illegible] railway.

A BOSS BERRY GROWER.

Horticultural papers of recent date cite the case of a strawberry grower at Creston, B. C., who last year raised 2,206 crates of strawberries—52,944 quarts—from four and one-eighth acres. In explaining the remarkable yield obtained the grower attributes it to careful preparation of and enriching the land before setting the plants; thorough cultivation, snipping blossoms, layering the runners and spraying two or three times the rows and scattering nitrates and covering with mulch pulled from berry rows the second season. In explanation of the prices received for berries, never less than $2.20 per crate, he lays especial stress on making preparations for the picking and packing of the fruit and shipping to but one dealer in a town. From the standpoint of productiveness and shipping quality he ranks the varieties of berries he has grown in the following order of excellence: Dunlap, Warfield, Parsons Beauty, Glen Mary, Clyde, Tennessee Prolific and Lady Thompson. This getting a gross return of close to $1,200 from each acre of land may be in part due to favorable climatic conditions, but more than all else to the man and the fact that he has made a very thorough business of growing strawberries.

BURNT SUGAR A DISINFECTANT.

The burning of sugar as a disinfectant in sickrooms is a practice followed in many parts of Europe and has usually been viewed by physicians as an innocent superstition, neither beneficial nor harmful. Professor Trilbert of the Pasteur institute at Paris has recently demonstrated in experiments which he has been making that the burning of sugar develops a remarkably powerful antiseptic gas. Five grams of sugar were burned under a glass bell holding ten quarts, and after the vapor had cooled germs of typhus, tuberculosis, cholera and smallpox were placed in open glass tubes under the bell, and within half an hour all the microbes were found dead. The efficacy of burnt sugar as a purifier of air containing offensive odors is well known and is probably due to the antiseptic principle referred to. This seems to be one instance in which a popular superstition seems unwittingly to have had a very good scientific foundation.

SEED IMPORTATIONS.

Professor N. E. Hansen of the South Dakota experiment station, sent abroad by Secretary Wilson to gather seeds of plants suitable to northern latitudes, has lately returned home. Included in some 250 kinds of seeds which he brought back with him are those of a clover and a variety of alfalfa growing wild in northern Asia north of Lake Baikal, where the temperature sometimes goes to 75 degrees below zero, adapted to the northwestern states; a supply of Persian clover seed suitable for western Texas, New Mexico and Arizona; varieties of alfalfa from north Africa, the original home of this legume, whence it was taken to Spain, to South America and then north and east through the southern states. It is Professor Hansen's belief that the ideal alfalfa of the future will be a hybrid of all the best alfalfas known. The development of these plant importations will be followed with keen interest by all who are watching the remarkable development of the country agriculturally.

Kansas holds the blue ribbon for the highest price ever paid for a load of farm products in the shape of a load of alfalfa seed bought by a dealer at Garden City. The load weighed 19,733 pounds, or 328.53 bushels. The price paid was $8 per bushel, and the value of the whole load was $2,631.15.

The Minnesota Agricultural college has ascertained through experiments that the cost of raising ten tons of green corn per acre and putting it into the silo is $18.30, making one pound of digestible nutrients cost 53 mills. An acre of mangels yielding twenty tons cost $34.12 to raise and harvest, making a pound of digestible nutrients cost 93 mills, or nearly twice the cost of the silage.

The revised government estimates of last year's cotton crop place the total acreage at 33,370,000 acres, the area actually picked 32,440,000 and the average yield per acre 194.9 pounds, not quite two-fifths of a bale per acre. The states leading in cotton production, with average acre yield, are as follows: Texas, 9,316,000 acres, 196 pounds; Georgia, 4,848,000 acres, 190 pounds; Alabama, 3,591,000 acres, 179 pounds; Mississippi, 3,395,000 acres, 233 pounds; South Carolina, 2,545,000 acres, 219 pounds; Oklahoma, 2,311,000 acres, 143 pounds. Missouri had but 87,000 acres to cotton, but her acre yield was 340 pounds.

NEWS OF THE GRANGES

Conducted by A. T. LILLEY

On August 11, two candidates were initiated at D. B. Mauger grange of Green's Landing. C. T. Hunsinger of Cooley grange, Job Morley of Mayflower, and A. T. Lilley of Open Hand were present as visitors on their way to Pomona grange to be held at Litchfield. Many thanks are due the grange at Green's Landing for providing conveyance from Athens to Pomona and return and also to Mr. and Mrs. F. C. Spear for entertainment of delegations the nights before and after the Pomona session. With the vim and hospitality shown by some of the members of this place. A fine hall would be a suitable reward in which to enjoy the fruits of their labor.

"With one accord" the members of Open Hand grange met in E. H. Mason's fine oak grove and held a very enjoyable grange picnic on the 7th of August. The place being so pleasant and suited for such a gathering, it was decided by unaminous vote to hold annual picnics at "Mason's Grove." The five living charter members of this grange, with about one hundred other members of the order and some visitors, enjoyed the viands of the well spread tables, the recitations, songs, speech making and the social intercourse of the occasion. For a picnic, having only a two day's notice from start to finish, all "went well."

The excellent report of proceedings of recent Pomona meeting by the Worthy Secretary, Mrs. F. C. Spear of Milan, is well worth careful reading.

In some respects the session was a record breaker. The two and one half hours morning session was just time enough to read minutes of last meeting, appoint committees, receive the reports from the subordinate granges of the Pomona district, discuss several important questions taken from question box, receive lengthy report of committee on resolutions, each resolution being read, discussed and adopted separately. Time was saved by thorough preparation beforehand. This object is well worth remembering for the future. The afternoon and evening sessions open to the public for the purpose of giving those outside the propriety of organizing a grange. More than a sufficient number were secured to reorganize a grange but on account of the lateness of the hour of closing of evening session, it was deferred until Friday evening, August 27, when Deputy A. T. Lilley will be in attendance to complete the work. The musical and literary talent from North Orwell grange was highly appreciated by everyone present. The ladies of Litchfield, who provided the dinner and supper in the church dining room, proved themselves as caterers to the wishes of all, while the singers pleased those who have a musical turn of mind.

In communication received from James Foust, dairy and food commissioner, he says: There has recently been given considerable publicity to reported violations of the oleomargarine law in a certain section of the state. I realize that the oleomargarine law, like the liquor law, is being violated to some extent, and that both these laws have always been violated. I am determined, however, to prosecute every individual who is detected in breaking this law and the accompanying data taken from the official records of this bureau show that more violators are being brought to justice now than at any time since the passage of the law in 1901. It is pretty generally known that there are defects in the federal laws. They render it more difficult to enforce the state law. All friends of the dairy interests should unite to have the defects corrected at the next session of congress. I also suggest that if you know of any violations of the state oleomargarine law you report them to this office. Personally, I am always glad to have every citizen take an interest in having the law respected and obeyed. The agents of this bureau have a little over four counties apiece to cover and they alone may not discover all the violations. The co-operation of all good citizens every where is respectfully invited. As the members of your grange are interested in this matter, I would be pleased to have you present this communication at the next meeting of your grange."

During Commissioner Foust's administration of two and one half years, 330 oleo cases have terminated in six counties and $33,429.28 in fines and costs paid into state treasury while in the six preceeding years, 435 cases were terminated and $28,961.09 were paid in.

"The grange is the only organization of the farmers for the farmers and by the farmers that we have and it is to it that our agricultural people must look for the assistance and encouragement necessary to make their chosen calling a grand success, and it is the duty of all who are engaged in producing food for our increasing population to identify themselves with this great movement, so well calculated to better the condition and lighten the burdens of those who are the foundation of all true national prosperity. "Farmers need to become more intimately acquainted with one another and to enter into a new and near relationship. Everyone for himself is a sordid, selfish, dwarfing sentiment that should be frowned down and in its stead the greatest good to my neighbor consistent with my personal rights should be the ruling principle." It is the duty of farmers to associate together for purposes of mutual intercourse, both social and intellectual. The grange is just the organization that affords proper facilities for consummating this work and the farmer who refrains from joining it is certainly working against the best interests of himself and family.

YOUNG WOMAN CHIDED, DRINKS CARBOLIC ACID.

Olive Bentley of Columbia Cross Roads Killed Herself.

The community of Columbia X Roads received a great shock on Saturday, August 7 by the suicide of Miss Olive Bentley, the 17-year-old daughter of Thurston Bentley, at the family home at about 5 o'clock in the afternoon.

Her mother disapproved of the company she was keeping and admonished her mildly that it was not for her welfare to do so.

Olive was displeased at her mother's remarks; because she told her daughter that it was a disgrace to the family for her to go in such company.

The daughter went into the pantry and returned with a two ounce bottle of carbolic acid, remarked that she would end the disgrace and immediately swallowed the contents. She was assisted to the lounge in the next room by her mother where she died within 15 minutes. Mr. and Mrs. Bentley have the sympathy of the people of their community in their deep sorrow. They are highly respected people and the young girl has always borne a good name.

It is a sad case of rashness which the young woman gave evidence of regretting before she died.

Boundary Line In Dispute.

E. N. Stone, F. H. Piatt and Samuel Harding, who were appointed by court to locate the disputed line between Northmoreland and Exeter townships, finished their work on Friday. Their survey shows that about one-fifth of the taxable real estate in Exeter, which is very small at best, belongs to Northmoreland township. The farm of Moorehouse Smith, the old Hanford Smith property, the residence of Adijah Baird, Henry C. Sax, and a number of cottages at West Falls are all on the wrong side of the line, according to previous suppositions. The supervisors of Exeter were here on Saturday to look up the old records at the court house and see if there is not some mistake about the matter. In case the report of the viewers stands, it is possible that an effort will be made to have Exeter enlarged by taking in some of the surrounding territory. Tunkhannock-Republican and New Age.

The description furnished by the wife is as follows: Sandy hair, blue eyes, mark on nose caused by accident in a mine, little finger of right hand stiff from being broken in accident. He wore a black coat, blue serge trousers, black shoes and brown stockings.

TOWANDA LOST REMARKABLE GAME AT ULSTER SATURDAY.

Total of Nine Hits Made—Some Sensational Plays.

Towanda lost a remarkable game at Ulster on Saturday, going down to defeat by the score of 6—1. The game was remarkable for the short time—one hour and twenty minutes which it occupied, for the small number of hits made on each side, and some sensational plays which were pulled off.

Parsons was on the gum for Towanda, and he let Ulster down with five hits, three of the punkiest kind. Three innings, he retired the Ulster batsmen on three pitched balls, every one a punk hit to the infield and an easy out to first. The "Almighty Ashley" had the heavy clouting Ulsterites swing like giants at his celebrated knuckle ball which could not be lammed out to a safe spot.

Corbett and McCracken were the fielding stars for Towanda, while H. Matthews robbed the City of Promise boys of two three base hits by sensational running catches. Corbett broke up a run fest when with three men on the pads, and Mulligan at bat, he went into the air, stabbed a hot liner with his gloved hand, came back to earth, stepped on second, completing a double play unassisted. McCracken made two long runs picking hits out of the daisies before the spheroid touched the sod. Cotter in right, and Turner in left, also made good catches.

Cranmer was on the slab for Ulster, and his slow ball was just as much of a puzzle to the Towanda batsmen as was Parson's knuckle deceiver. Four hits, two two baggers, were all that the Towandians collected from the man formerly with Shamokin in the Atlantic league. He was given gilt edge support at every point.

Towanda's one run was made in the first inning. Corbett, the first man up, smashed out a two bagger, and a moment later V. Putnam duplicated the drive, scoring Corbett. Up until the eighth inning it was a good game, fast fielding work characterizing the play. After two were down in the eighth, Ulster filled the bases through errors, and an umpire's choice, and then two scratch hits brought in four runs. These four runs were accumulated, and the side had been retired in less time than it takes to tell it.

Ulster had made great preparations on trimming Towanda, and they were not disappointed. A good crowd was in attendance, and such rooting has not been heard on the Ulster grounds in a long time. When the last Towandian had been retired, there was great rejoicing in the village.

This is the way the teams lined up: Towanda—Bazzett c, Parsonsp, S. Putnam 1b, V. Putnam 2b, Corbett ss, Rockwell 3b, Turner lf, McCracken cf, Cotter rf. Ulster—Morrison c, Cranmer p, Mulligan 1b, G. Matthews 2b, Mallory ss, Farrell 3b, J. Childs lf, H. Matthews cf, Davidson rf.

Score by innings:

Towanda .....1 0 0 0 0 0 0 0 0—1
Ulster .....0 1 1 0 0 0 0 4 x—6

Summary—Two base hits, H. Matthews, Mulligan, Corbett, V. Putnam; singles, Cranmer, Morrison, Childs, S. Putnam and Corbett. Base on balls off Parsons 2; hit by pitcher, Parsons one; struck out by Parsons 1; by Cranmer 10; errors, Towanda 5, Ulster 2. Umpire, Childs.

Crops Greatly Damaged.

Bradford county crops have been greatly damaged by the drouth which has been the most severe in many years. Farmers from different sections of the county report that crops have been held back so that in many cases, there will be no harvest. Buckwheat which should be well up in good condition, in some places is only an inch high, and will not be worth harvesting. In many sections of the county there has been no rain since June 17. The shower which visited Towanda last week, doing a world of good, did not touch the Western part of the county. Yesterday's rain, while not great, helped some but the crops on many farms are beyond saving.

Bradford County Ahead.

Says the Susquehanna Transcript: "Bradford county is far ahead of Susquehanna county in road improvement through the use of the split log drag. An automobile driver passing over some of the roads of that county where the drag had been used was very emphatic in his praise regarding the fine condition in which it had placed the highways. It is an inexpensive road implement and the use of it entails but slight cost. If one of these machines were used on the streets of Susquehanna the result would be much better roadways and less expense for street improvement."

Rabid Dog Killed.

Constable Fenner of South Towanda, on Sunday shot and killed a dog which was suffering with rabies. The animal was in the road in front of the Fenner home, and was howling and biting himself, when killed by the constable.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

CENSUS WORK WILL BE COMMENCED IN NEAR FUTURE.

Bradford County is in the Tenth District—Good Pay For Enumerators

Some time this fall the supervisor who will have direct charge of the taking of the census in Bradford county will be appointed in order that he may get to work and map out the districts to be assigned to the enumerators. Word from Washington D. C. is to the effect that Director Durand has not yet fixed the exact date for the appointment of the supervisors, but that they will be named in time to get everything arranged for the work before them. Special agents who are to gather the statistics about manufactures will be placed in the field about January.

They will be put to work early in order that they may get the information they desire covering the current calendar this year and get it while it is yet fresh in mind. The position of supervisor is a good one, carrying with it a good salary. Enumerators will receive so much per name. In sparsely settled neighborhoods three and four cents per name is paid. Already a number of prominent men are casting their eyes toward the tree from which these plums will fall.

The counties of Bradford, Susquehanna, Wayne and Wyoming will be known as the tenth census district Pennsylvania having all told 23 districts.

May Meet Here.

If the power dam is built near Towanda, the Electrical Engineers of Pennsylvania, will hold their state convention in Towanda in 1910. The association met at Eagles Mere this year. The engineers are greatly interested in the dam project, and have already opened negotiations for the holding of the 1910 convention in the City of Promise, which will give them a chance to inspect the work under way, and get some practical experience in dam building. Towanda is the only town in Northern Pennsylvania which has the accommodations for a large number of people who would desire good hotel accommodations and a suitable place for the holding of a convention. The engineers also desire to hold their convention in Towanda the year in which the dam is completed.

Giving Skin to Fellow Employe.

Byron S. Latimer of Auburn, the Lehigh fireman who was so severely injured in the head-on collision on the Auburn division near Harford Mills on March 25 last, is again undergoing extensive skin grafting operations at the Packer hospital. Last week an appeal to the fellow employes of Latimer to contribute skin for grafting was posted on the order board at Auburn. Quite a number at once offered their aid to the unfortunate man in this way, and all the grafts necessary will be furnished by various men as they are needed. A previous effort had been made to graft skin upon the injured man's leg but this would not adhere, probably owing to the condition of the flesh which had been so horribly cooked by the live steam from the boiler of his engine at the time the collision took place.

Commendable Enterprise.

With commendable enterprise, C. S. Fitch, the well known confectioner, Thursday employed Elisha Rowe, who gave a section of the new brick pavement on Main street a thorough sweeping, just to see how it would look. The pavement was cleaned from Court to Park street, one square, and it was a decided improvement. The business men along Main street petitioned council for the employment of a man whose sole duty it would be to keep Main street spick and span, and while waiting for the commencing of that work by the council, Mr. Fitch thought he would have a section cleaned at his own expense as a sort of experiment.

F. B. GORHAM HAD CLOSE CALL FROM DEATH.

Went Over Stone Wall in North Towanda Township and Down Bank

F. B. Gorham, brother of M. J. Gorham, one of the Towanda mail carriers, had a close call from death on Monday evening of this week. With his horse and carriage he went over a stone wall in North Towanda township, rolling down a high embankment, but was fortunate enough to escape without serious injury to himself or horse.

Mr. Gorham lately returned from Arizona, and is preparing to settle in Sayre. He was driving from Athens to Towanda, and about 9 o'clock reached the road which branches from the main Towanda—Ulster road, made the wrong turn, going toward Saco, instead of Towanda.

It was dark, and raining, and being unacquainted with the roads Mr. Gorham was not aware of his mistake until the accident. After traveling some distance, going back in the direction of Ulster, the horse plunged off the road, going over a stone wall on which the outer side of the road is built. Over and over rolled the horse, carriage and driver, finally landing at the foot of the hill, some 60 or 70 feet below. The horse lay perfectly still when the bottom was reached, and Mr. Gorham, who had freed himself from the carriage, thought the animal was dead. He made his way out of the ravine, and went to the home of George Biles, who lives nearby, and secured the assistance of Mr. Biles, who with a lantern went back to the scene of the accident.

They found the horse still lying down, and not only alive, but browsing contentedly as if nothing had happened. An examination showed that the horse was uninjured, and the carriage not damaged but so it could be used by Mr. Gorham to drive on to Towanda with.

Paralysis Lowers Clergyman.

Rev. Dr. Henry Tuckley, district superintendent of the Binghamton district of the Wyoming conference and until a year ago pastor of Asbury Methodist Episcopal church at Scranton, was stricken with paralysis Monday afternoon while presiding over the session of the Dimock camp meeting at Montrose. It was during the afternoon session that Dr. Tuckley became ill. Feeling weak, he started for his cottage and while passing through the grounds was seen to totter and fall. Dr. Thompson hurried to his assistance and he was carried to his cottage, where an examination revealed that the entire right side was completely paralyzed. He at once sank into a semi-comatose condition and late Monday night was about the same. While the attending physicians fear the worst, they say that if they can keep him awake that his chances of recovery will be greatly improved. At the time of the stroke, there was a large congregation present in the chapel and the incident created considerable excitement. This is Dr. Tuckley's second year as district superintendent, he having been taken from his Scranton charge and given his present position at the session of conference held in Carbondale in the spring of 1908.

Rapid Growth of Corn.

An exchange says that a Syracuse man made a bet of $5 the other day that corn in his garden was growing at the rate of an inch every six hours. The money was put up and one stalk of corn measured and in 31 hours it was found to have grown seven inches.

SNAKOLOGY

By I. M. Agination, Esq.

Says this week's New Albany Mirror: "There are so many remarkable snake stories being related by the local press these days that the following will seem very tame and vapid, but as our old friend Jack Phinney of Doolittle Hill has desired us to tell the story, we do so, and as we have known Jack for a good many years and he has never told us a snake story that was not true, we have full confidence in the truth of the following: On a recent morning when the quarrymen went to the stone quarry on the Thomas Bowen farm in Transue Valley, to begin their days work, they heard a strange clanging sound down on one of the lower beds of rock. Going to the spot the men were astonished to see a monstrous blacksnake struggling to get up out of the hole. They stood and watched and saw the snake, start up the side of the well like cavity and when he was up at full length and attempted to wiggle out, back he fell stiff as a stake, and when he struck the rock floor there was a resounding clang like striking an anvil with a twenty pound hammer. Several times the snake made the attempt to escape from the hole, but each time with the same result. Finally one of the men went to the edge and flung a large piece of rock upon the head of the reptile and killed it. Upon examination it was discovered that he had swallowed a large iron crow bar and this so interfered with bending his body in creeping up the steep sides of the stone hole that he was unable to escape. The weight of the bar probably had something to do with his inability to escape. The only reason given for the snake swallowing the crowbar was that it had been greased with tallow to keep it from rusting, and blacksnakes are known to be exceedingly fond of tallow."

Self Explanatory.

All that was once mortal of the late Henry Streeter, Esq., is at rest in the cemetery at Montrose. The funeral party left Towanda Wednesday morning on the Lehigh passenger train going to Montrose, where they were met by Judge Little and a delegation of the Susquehanna Bar, and escorted to the cemetery where brief services were conducted by Rev. LOCOMOTIVES AND COAL CARS CAME TOGETHER.

Accident With a Fortunate Ending at the Connell Coal Yard.

A gondola coal car minus a pair of trucks and lying in the ravine at the rear of Christ church, a cut and bruised knee for Peter Sterigere and slight damage to the coal trestle at the Overton Basin yard of the Connel Coal company totals the results of what might easily have been a very serious accident.

Wednesday afternoon Leonard Chamberlain and Peter Sterigere, employes of Manager Meredith of the Connell yard, were engaged in unloading a car of pea coal at the extreme Western end of the trestle. To allow the passing of the Bernice branch coal train the switch engine with one box car was run into the coal yard switch, but the switch was not closed. The coal train coming up the yard took the switch and bumped the switch engine with terrific force, derailing the engine, tender and box car before being brought to a stop.

The force of the impact bumped the cars standing on the trestle, and the one in which the men were working was forced over the bumpers. The men were thrown the length of the car and badly bruised and frightened. Mr. Sterigere suffered a bad cut on one leg.

The derailed engine and car were soon replaced, but the raising of the coal car and the repair of the trestle will be a longer job.

Of Interest to Farmers.

A farmer living near Athens sends the following to The Review as a suggestion for agriculturalists: Experiment—Sow flat turnip seeds in buckwheat fields any time in August, and by the time buckwheat is cut, there will be tiny plants. After that if the Fall should be a little late, and the weather moist, the chances are very favorable for a good crop of turnips before freezing weather. Farmers can feed them to stock, or bury them for future use." Should any farmer try this experiment and find it of value, they are requested to so inform The Review.

Building-Loan Elasticity.

Assistant Deputy Attorney General W. M. Hargest has rendered a decision in which he states that an officer in a building and loan association can perform some of the duties which naturally attach to another office, if he does not actually hold that second office. The opinion was given to the Banking Department, which desired to know whether the secretary of a company could act as solicitor. The law provides that no officer may hold more than one office.

UNITED FIGHT TO BE WAGED AGAINST OLEO.

State Agricultural Department is Helping the Dairymen.

Bradford farmers and dairymen as well as those throughout the State are being urged by the agricultural department to insist upon amendments being made to the federal pure food act that will prove helpful to them and their interests.

At present there is much discontent among the members of the State Grange and among farmers and dairymen not affiliated with the association. They realize that the state pure food law, know as the Murphy law, is protecting them, while loop holes in the federal drug and food act permit unprincipled persons to world against their interests.

Secretary of Agriculture N. B. Critchfield and Dairy and Food Commissioner James Foust, whose strenuous efforts to enforce the new law is rapidly stopping the sale of oleomargarine as butter, has addressed a letter to the officers and members of the Pomona and subordinate granges of the State, and in this they call attention to the defects of the federal law.

The department has been informed that a systematic and persistent effort will be made to secure the passage at the next session of congress of an act removing the provision that a tax of ten cents per pound be paid upon colored oleo, and placing it upon the same footing as the uncolored product. The farmers and the dairymen of the State are strongly urged to oppose such a move and insist upon such amendments as will benefit them and at the same time reduce to a minimum the deception possible to be practiced upon the public. The department suggests that the farmers and dairymen prepare petitions and that these be signed by all members of organizations as well as those who are not members and then be forwarded to their senators and representatives at Washington.

Among the changes needed in the law are: The provision that it must be proven an offender "knowingly" violated the law in order to secure conviction should be stricken out.

Revenue collectors should not be permitted to settle cases; when an offense has been committed it should be disposed of by a court.

All stamps and brands placed on packages of oleo should be plain and conspicuous.

Applicants for revenue license should be required to certify that the location given is correct, and if oleo is sold by the applicant at any other address than that given, it should be made a misdemeanor.

Lancaster's Horse Stolen.

A news dispatch from South Sterling, Wayne county, says: "Wayne county cattle were a couple of hours late at the milking Sunday morning, all on account of a horse thief that got away with the horse belonging to George Lancaster of South Sterling. When Lancaster went to the barn he found one dead and the other missing. The night before an Italian who had been dismissed from the place recently was seen lurking about the place and suspicion was directed to him. Lancaster notified his neighbors and enraged by the act a couple of dozen husky young farmer and their help formed a posse. The chase lasted several hours and covered the entire end of the county. Finally a squad came upon the Italian drunk and lying in the road with the horse tied to a tree close by. The Italian was tied hand and foot and strapped to the stolen horse and taken back to the town jail. The capture was made through the fact that the horse wore peculiar shoes and left hoof marks easily trailed."

Lehigh Valley Sued.

Claiming $5,000, Mr. and Mrs. Chas. Kulp of Freeland, started an action in trespass yesterday against the Lehigh Valley Railroad company. The action was started because of an injury received by Mrs. Kulp while riding on a train of the defendant between Mauch Chunk and Freeland. It sems the train suddenly started and Mrs. Kulp was knocked against the seats and internally injured. The accident occurred last April. Mrs. Kulp asks $3,500 and the husband $1,500 by reason of having his wife incapacitated.—Hazleton Standard.

Found Purse.

Wilbur Mann, the young son of Mr. and Mrs. Orin Mann, found a purse containing quite a sum of money on the wagon bridge the other day. The owner was located through an address on a slip of paper in the pocketbook, and in a few days called for his property, making the boy a present of a $2 bill. Willis Mann, twin brother of Wilbur, a couple of weeks ago found a pocketbook containing $78 which was returned to the owner, who presented the youngster with a quarter.

Water Train Stayed Fire.

Several hundred cords of bark belonging to Charles W. Sones were destroyed by a forest fire in the Laporte region Tuesday night. One hundred men's services in "back firing" proved unavailing. The fire was prevented from crossing the Williamsport & North Branch Railroad by a water train, plentifully manned, and which was kept running back and forth all day and night.

TOWANDA SWATTISTS PUT KIBOSH ON LAQUIN LARRUPERS

City of Promise Spheroid Specialists Too Strong For Lumber Lads.

The Towanda swatologists, known in polite baseball society as spheroid specialists, put the kibosh on the Laquin larrupers Wednesday after dinner time on the East side lawn by the score of 9-3. Laquin lambasted the locals at Laquin on the 31st of July some weeks ago, if memory is correct, and yesterday to obliterate the pain of that defeat the City of Promise horsehide heelers hurled themselves hard at the lumber city lads and got away with the game and thus had their little r-e-v-e-n-g-e, ah, as the villian would say.

Nearly a thousand people, including about 200 Laquinites saw the contest, and during the first part of the game they did some tall warbling, the sound reminding one of an East African picnic gathering, what ever that may be like. After the third inning when the locals secured six hits which netted five runs, there was nothing to it, and quietness reigned supreme, or something like that.

From the first stanza when flashing Leo Corbett smashed a brand new Spalding square on the left ear for a pass which took him around to the second station, it was noticed by the critical cus-uses that there was going to be something doing by the boys who some day will dangle their feet in a big pond near Towanda, and sure enough there was, and more. Corbett's double clout was followed by one of the same flavor right off the pick handle wielded by William Victory Putnam, Esquire, which scored Corbett. Bazzett banged out a single, but there was no more tallying by the Towandians until after Laquin had duplicated the score in the second

In the third amendment, sometimes called inning, Laquin went straight up near the line where the Wright Brothers make their best aeroplane time, and before they got back to the starting point, these Towanda boys who the self styled judges of the great national game said could not play marbles, had made enough runs to last over Winter. In this same stanza, there was considerable discussing among the players and some of the spectators, but all was settled without anyone cracking their voice, and the game proceeded, but the result was never in doubt after the fatal third.

Rockwell had everything a pitcher needs, but support, and that was lacking. Seven errors by the supporting cast tells too plainly why Towanda outplayed the boys from the towering pines. Another stumbling block was "Jack" Cotter, who absolutely refused to allow the Laquin boys to become too familiar with his inshoots, dropstitches, and other goods, which he as a speed merchant dispenses. His spport was good, very good. David Smith broke up a three bagger or home runner by stabbing a long drive down in the spreading pasture where George B. Shore's cows are won't to loaf and chew their cuds while not otherwise engaged. Hullet Turner in the right garden also made a nice catch of a sky terrier, and McCracken in centre pasture pulled down one of the same brand.

In this connection let it become noised around that the work of the Towanda $15,000 infield was deserving of tissue wrapping and pink baby ribbon tied in bridal knots. Stewart Smotherem Putnam at the initial corner, his distinguished brother William Victory Putnam at the second stop off, Leo Landem Corbett at the abreviated stop and George Gotoit Rockwell right where the runner stops before he starts for the old home celebration at the home plate, were all to the picture of dandiness. Bazzett and Cotter, as the live wires complete this combination of rare performers who cannot be equaled outside the big leagues, so it is claimed. For the visitors, Rockwell, Lilley, Dunfee and Matthews starred.

The Laquin team is composed of a fine set of young fellows, and they have many friends in Towanda, who are always anxious to see them work on the diamond.

Here are the plans and specifications of yesterday's layout:

IT'S YOUR KIDNEYS.

Don't Mistake the Cause of Your Troubles. A Towanda Citizen Shows How to Cure Them.

Many people never suspect their kidneys. If suffering from a lame, weak or aching back they think that it is only a muscular weakness; when urinary trouble sets in they think it will soon correct itself. And so it is with all the other symptoms of kidney disorders. That is just where the danger lies. You must cure these troubles or they may lead to diabetes or Bright's disease. The best remedy to use is Doan's Kidney Pills. It cures all ills which are caused by weak or diseased kidneys. Towanda people testify to permanent cures.

John Coats, farmer, North Towanda, Pa., says: "Doan's Kidney Pills proved to be an excellent remedy in my case. I suffered from backache for a long time and finally other symptoms of kidney complaint developed. I then procured a box of Doan's Kidney Pills at Dr. Porter's Pharmacy and they went at once to the seat of my trouble and gave me relief. I continued taking them and three boxes entirely freed me from the difficulties which had given me so much misery. I cannot speak too highly in favor of this sterling remedy."

DEATH RECALLS CURE OF CASE OF LOCKJAW.

The Late W. H. Snedeker Had Remarkable Escape From Disease.

The death of W. H. Snedeker of Snedekers, this county, the other day, closed an eventful life which figured in many interesting events in the County of Bradford. The village of Snedekers, on the Northern Central Railroad, was named for the family, which for many years were among the leading workers of the county.

When Mr. Snedeker was fifty years old he had a finger torn off in an accident in which blood poisoning and later lockjaw developed in a serious case. Physicians were called from Elmira and other towns, but each one pronounced the case as hopeless.

A country doctor from a locality near Troy was called and after examining the case of lockjaw he said the patient had no chance of recovery, but offered to try a remedy, which he claimed might help the patient, but would probably kill him, and as the patient would die at any time from the disease it would not make any great difference if the remedy hastened death, and that it might help.

It was decided to try the country doctor's remedy and he proceeded to give Mr. Snedeker 60 grains of calomel in a dose. The powerful drug was sufficient to kill several people and the patient was in a critical condition for some time, but eventually recovered and lived a useful life for 43 years after that experience, until he died Friday, August 6.

Green Trunk Opened.

The "little green trunk" which was found on the railroad tracks Friday morning, and which has aroused considerable curosity, was opened on Saturday in the presence of Chief of Police Miller. It contained mostly underwear and wearing apparel. A machinist's wrench, and a very heavy pair of shoes accounted for the additional extra weight. Among the personal papers were a pass-port, issued for three years from Jan. 1909 by the Austro-Hungary Empire and some other documents, which by translating indicate that the owner is Joseph Norwacki, of some intellegible town in Galicia, Austria-Hungary, aged 44 years, a laborer. He was vaccinated Feb. 3, 1909, and took passage on Steamship Cologne (Koln) sailing from Bremem, Germany, Feb. 4, 1909. A package of smoking tobacco, had the printed address of dealer, McGinness, Powell, Pa. The owner of the trunk can have some by applying to Chief Miller, or at Gori's grocery.

Burgess Sawtelle Defied.

The attractions at Keystone Park, Sayre's pleasure resort, were operated in full swing on Sunday, contrary to the orders of Burgess Sawtelle. In company with Police Chief James Walsh, the burgess visited the park and ordered the merry-go-round closed down, but it kept on running, and a warrant was issued for the owner's arrest. Burgess Sawtelle is determined to keep the attractions closed on Sabbath, the owners of the attractions will carry the case to court to see if he can do this.

JAMES STREET BRIDGE IS A GREAT ACCOMMODATION

Few, If Any Bridges in the County, Are Used More Than This One.

Few, if any bridges in the entire county of Bradford are used more day in and day out, than the new James street bridge which crosses the Susquehanna river, connecting Wysox and North Towanda townships. John W. Mix, formerly president of the Towanda Business Men's association, which was instrumental in securing the bridge, with John J. Webb, a prominent North Towanda township citizen, who lives near the Western approach to the bridge, have been doing a little tab keeping on the number of vehicles which cross the bridge Mr. Webb did the tab keeping, and kept watch on the bridge during certain days.

On July 1, Mr. Webb counted 47 one horse outfits, 24 two horse, and four automobiles. The next day, July 2, 40 one horse, 20 two horse, and two automobiles used the bridge; July 3, 53 one horse, 19 two horse and two automobiles crossed; July 4, Sunday, there were 57 one horse, 13 two horse, and five automobiles to make use of the structure; July 5, a legal holiday, the number was larger, 60 one horse, 16 two horse and six autos passing over.

To make sure that these large numbers were not out of the ordinary, Mr. Webb waited until August 9, when during half a day 33 one horse, 28 two horse and two autos used the bridge. The next day, August 10, 48 one horse and 31 two horse vehicles were counted and the last day, Wednesday of this week, on which Mr. Webb made a colunt, 55 one horse and 28 two horse outfits used the bridge.

These figures show that the James street bridge is no ornament, and that it was greatly needed. It is estimated that at least 50 people walk across the structure every day.

PENNSYLVANIA HAS A HALF OF A SCHOOL TEACHER.

Keystone State Pays Half of Wages and York State Other Half.

That Pennsylvania has one-half of a teacher and 33705 whole ones in its public schools is a fact disclosed in this year's payment of public school moneys to the counties. The one-half of a teacher is caused by Erie county, where one township maintains a school jointly with an adjoining township in New York State, each bearing one-half the expense.

There are 1,301,406 school children in the State, and a grand total of $6,970,144.25 is now being distributed to the school by the Department of Public Instruction. So far about one-quarter of the amount has been paid out, and the remaining districts, will be paid as rapidly as their reports are filed. The poorer districts, however, will receive preference in payment, on the ground that they are more in need of the money.

This sum is being apportioned from the $15,000,000 appropriation made by the Legislature of 1907 for the two appropriation years of 1907-8 and 1908 9, this year beginning with June and ending with May. The amount per annum was reduced from $7,500,000 to slightly less than 7,000,000 by the money necessary for the normal school and others items.

Bradford county's apportionment has not been announced as yet.

MARRIED, NOT DEAD.

Meshoppen Girl Figures in Romatic Marriage—Parents Scared.

Says this week's Meshoppen Enterprise: "The many friends here of Miss Bessie Kintner was shocked on Saturday when it was reported that she was missing at Lake Winola where she had been visiting her brother, John Kintner. It had been her custom to frequently go out into a boat alone on the lake and when she suddenly disappeared from her brother's home it was very probable to her friends there that she might be drowned. Word was sent to her parents, Mr. and Mrs. Geo. Kintner at this place, who drove to Lake Winola prepared to have the report confirmed that their daughter was dead in a watery grave at the bottom of the lake.

"The father and mother had not been in that section long, before rumors of matrimony put at rest their fears and later a telephone message from the daughter, from Wilkes-Barre brought the information that she was sailing on the turbulent sea of matrimony and not just boating on the peaceful swell of Lake Winola. The whole matter is explained by the following:

"Married—Kintner and Genung. One of Meshoppen's well known and popular young ladies, Miss Bessie P. Kintner, daughter of Mr. and Mrs. Geo. Kintner, was united in marriage to Harry B. Genung of Buffalo, N. Y., Saturday evening, August , 1909, at Wilkes-Barre by Justice of the Peace John Masterson.

The estate was assessed for $2,500,000. The administration asked for a reduction to $183,654. The board finally fixed the assessment at $1,833,845.70 on personal and $2,250 in real estate.

The burgess is determined to keep the "lid on" in Sayre, and Mr. Smith, and other amusement operators in the park are anxious to give the people a little entertainment, and a great struggle is expected. When the patrol wagon pulled up in front of his place the officers were surprised when Vester walked out of his place and climbed into the wagon. A Hurry Up Medicine.

Every housekeeper recognizes the need of effective remedies to be used in emergencies—when something must be done right away. Such a remedy is Perry Davis' Painkiller, for sprains and bruises, for strained muscles and for the aches and pains resulting from blows and falls. Burns and cuts are instantly relieved by it and helped to healing. Its mission of mercy began seventy years ago. It is used in all countries and millions of bottles are sold annually. There is but one Painkiller, Perry Davis'. Have you seen the new large 35c size?

CHILD'S DREADFUL SKIN TROUBLES

Had Sixty Boils when but Six Months Old—Was Annually Attacked by a Humor—It Looked Red Like a Scald and Spread Over Half Her Head—Both Troubles are Cured.

NO PRAISE TOO HIGH FOR THE CUTICURA REMEDIES

"When my little Vivian was about six months old, her papa had a boil on his forehead. At that time the child was covered with prickly heat and I suppose in scratching it, her own head became infected for it broke out in boils, one after another. She had about sixty in all and I used Cuticura Soap and Cuticura Ointment which cured her of them entirely. Then, sometime later, her little foot got sore between the toes. Being afraid it was salt rheum, I spoke to our doctor. He gave me a powder which dried it up, but soon after it broke out behind her ears. They cracked half way around and the humor spread up on to her head until, on several occasions, it was nearly half covered. The humor looked like a scald, very red with a sticky, clear fluid coming from it. This occurred every year. I think it was toward the spring. I always bathed it with warm water and Cuticura Soap and applied Cuticura Ointment which never failed to heal it up. The last time it broke out was when she was six years old. It became so bad that I was discouraged. Then I procured a bottle of Cuticura Resolvent which soon cleared it out of her blood. I continued the use of Cuticura Soap and Ointment with the Resolvent until she was perfectly well. She is now about eight years old and has never been troubled in the last two years. We also find Cuticura Resolvent a good spring medicine and we are just giving the children Cuticura Resolvent Pills as a tonic. We do not think any one can praise Cuticura Remedies too highly. Mrs. M. A. Schwerin, 674 Spring Wells Ave., Detroit, Mich., Feb. 24, 1908."

Complete External and Internal Treatment for Every Humor of Infants, Children and Adults consists of Cuticura Soap (25c.) to Cleanse the Skin, Cuticura Ointment (50c.) to Heal the Skin and Cuticura Resolvent (50c.), (or in the form of Chocolate Coated Pills, 25c. per vial of 60) to Purify the Blood.
